

**DEVELOPMENT REVIEW COMMITTEE APPLICATION
 for Review of Zoning Variances and Special Exceptions**

This is not to be completed online. Please DOWNLOAD this form.

If you have applied for a Zoning Permit from the Philadelphia Department of Licenses and Inspections and received a Refusal or Referral, you may choose to file an appeal. If you do, you will be referred to the Chestnut Hill Community Association for RCO review. To initiate that process we ask you to fill out this application, and submit it to us, along with a copy of the Refusal or Referral, your Appeal, plans (site, floor, elevation), photographs of the property and surrounding area, and any other documentation you feel would be helpful.)..

Please send this information to RCO-CHCA@chestnuthill.org or deliver it to 8434 Germantown Avenue. 19118
 If you have questions, please call the Executive Director at Town Hall (215-248-8811) or e-mail RCO-CHCA@chestnuthill.org. In order to be included on our meeting agendas, you need to initiate contact with us no less than 8 days in advance of the next DRC meeting, which is held on the third Tuesday of every month.

The CHCA review process provides opportunities for your application to be reviewed by professionals, community members and organizations, over the course of 3-5 regularly-scheduled meetings. The process typically spans 37-44 days. Occasionally, revisions are requested that may lengthen the process. Participation in the review process is the only way your application can receive a letter of support from the CHCA Board.

We appreciate your submitting this information early in your process, even preliminary to having a ZBA hearing date. The sooner we hear from you, the better we are able to help you in this process. We look forward to meeting with you, and helping you make a positive contribution to Chestnut Hill. Thank you.

ZBA Meeting Date: Wednesday, February 7, 2024 **Time:** 2PM

11) **Plans & Drawings:** Please provide the plans and drawings as you submitted them to the Philadelphia Department of Licenses & Inspections. These plans must be submitted in PDF form with your application. Please bring full size plans or drawings to the DRC meeting and other review committee meetings as requested.

12) **Community Benefits:** If applicable, provide a statement of benefits of the project to Chestnut Hill.

Our goal for 7504 St Martins Lane is to sell it to a buyer interested in preserving its historic beauty.

Given that it's in need of significant renovation, which will come a great cost, a private entrance onto a

quieter street increases the likelihood someone will take interest in the project and preserve the home.

- 13) Notification to Neighbors:** The City of Philadelphia requires applicants for variances and special exceptions to notify neighbors within a specified radius of your property. This notification must state that you will be presenting your plans to the community and include the property address, date, time and location of the meeting. Instructions and a list of specific addresses for notification are provided to applicants by the Philadelphia City Planning Commission. (You will first need to file an Appeal with the Philadelphia Zoning Board of Adjustment in order to obtain these instructions and addresses.)

Directions on how to proceed with notifications can be found at:

<https://www.phila.gov/rnotification/>

IMPORTANT: We ask that you contact us prior to sending out neighbor notices so we can confirm the meeting date with you.

- 14) Please provide the addresses of neighbors adjoining and across from your proposed development. Before a recommendation can be made by the DRC to the CHCA Board, signed letters or petitions indicating the responses of the adjoining neighbors are requested.**

- 15) Operational Impacts:** Please check the items below that may cause the proposed development to have operational impacts on immediate neighbors, businesses, and the surrounding community.

change in off-street parking demand fencing or landscaping along adjoining properties

change in on-street parking demand increased noise levels

change in pedestrian circulation increased odors

change in vehicular circulation blocked views

hours of operation _____ increased outdoor lighting

access and timing of goods delivery party walls

access and timing of waste removal change in utility demand

number of customers/day _____ number of employees

other impacts (please specify) _____

Please attach statements or diagrams of how you plan to address each of these items.

- 16) Historic Significance:** Please indicate the historic significance of the property (i.e., date of construction, style of architecture, architect if known, National Historic Register status.) The Chestnut Hill Conservancy has documented nearly every existing structure and can provide you with this information. Contact 215-247-9329, Ext 205

420 Mermaid Lane Residence is a modified Georgian style three story home designed by Architect Robert Rodes McGoodwin in 1913. This residence is not listed as part of the National Historic Registry.

- 17) Historical Context:** Please describe the proposal relative to the historical context of the property and the surrounding properties. (If not known, consult the Chestnut Hill Conservancy.)

420 Mermaid Lane is a 2-1/2 story stone residence with original dormers, stone lintels and sills. All original features of the house and carriage house to remain. Additional pool house proposed to be constructed in keeping with the style of Chestnut Hill (see elevations). It was one of five original residences constructed along the Philadelphia railway line with all residences built in differing styles along the tree-lined street in suburban Chestnut Hill.

- 18) Environmental Assessment:** Please describe the proposal relative to the environmental context of the property and the surrounding properties (e.g., removal of tanks, trees, hedges, walls).

A section of wall along St. Martins Ln will be removed for the proposed driveway. New wall will be joined to the old wall and seamlessly follow the driveway. No healthy heritage trees will be removed; all caliper inches of trees removed will be replaced. Comprehensive stormwater management plan spanning both properties will considerably improve existing stormwater situation (see plan).

- 19) Wissahickon Watershed:** Chestnut Hill lies entirely within the Wissahickon Watershed. A City of Philadelphia ordinance restricts all development within the Watershed with regard to set backs from water courses, site clearing and construction activity on steep slopes (greater than 15 percent), impervious coverage ratios, and some earth-moving activity. Describe the effect of your proposed project on the Watershed. Contact 215-247-0417 – for the Friends of the Wissahickon for more information

Both 420 Mermaid and 7504 St Martins reside within Category 5 of the Wissahickon Watershed. Thus, there are no restrictions on impervious cover. All earth disturbance is located greater than 200ft from Cresheim Creek. The project disturbs small portions of man-made steep slopes, but stringent E&S measures will be provided throughout construction and post-construction stormwater runoff will be captured and directed to the sewer.
